A GLOBAL MEETING POINT FOR EDUCATIONAL RESEARCH

This international online conference brings together researchers, educators, doctoral students and professionals from around the world to discuss contemporary methodological developments, innovative research approaches and the growing role of artificial intelligence in education. The conference connects methodology, measurement, data analysis, scientific evidence and real educational practice.

CONNECTING RESEARCHERS ACROSS CONTINENTS

Europe • Australia • Asia

North America • South America • Africa

Different contexts. Shared questions. A stronger education.

BOOK OF ABSTRACTS
WITH ISBN

KEYNOTE LECTURES
by leading international experts

ORAL AND POSTER PRESENTATIONS
and methodological discussions

DIGITAL CERTIFICATE
of participation

ACCESS TO RECORDINGS
after the conference

NETWORKING OPPORTUNITIES
with researchers from around the world

CONFERENCE TOPICS

- 1 Quantitative, Qualitative & Mixed Methods Research
- 2 Educational Measurement and Assessment
- 3 Contemporary Statistical Methods & Data Analytics
- 4 Artificial Intelligence in Educational Research
- 5 Innovative Research Approaches
- 6 Research in Educational Settings and Practice

IMPORTANT DATES

ABSTRACT SUBMISSION DEADLINE
15 MARCH 2027 (23:59 CET)

NOTIFICATION OF ACCEPTANCE
31 MARCH 2027

REGULAR REGISTRATION DEADLINE
30 APRIL 2027

FINAL PROGRAM RELEASE
7 MAY 2027

CONFERENCE DATES
17-18 MAY 2027

WHO SHOULD ATTEND?

- ✓ Researchers and academics
- ✓ Educators and school leaders
- ✓ Doctoral students and early career researchers
- ✓ Educational practitioners and professionals
- ✓ Anyone interested in educational research, innovation and evidence-based practice

REGISTRATION FEE

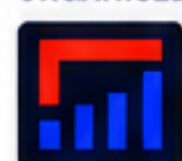

200 €
(until 30 April 2027)
