

RESEARCH AND EXPERTISE:

BETTER INTERNET

- Cyberviolence prevention
- Countering child abuse online
- Prevention of addiction to digital technologies
- Hate speech and disinformation

DIGITAL SOCIETY

- Social informatics
- Active and healthy ageing
- eCare & eHealth services
- Social robotics
- Digital technologies in education
- Privacy on the internet

DIGITAL INEQUALITY

- Digital divide
- New technologies and ageing
- New technologies and youth
- Digital skills
- Digital and social inclusion

Faculty of
Social Sciences

CENTRE
FOR SOCIAL
INFORMATICS

The **CENTRE FOR SOCIAL INFORMATICS** (CSI), with more than 30 researchers, is one of the largest research centres at the Faculty of Social Sciences, University of Ljubljana, Slovenia. Drawing on our past experience and innovative methodological and statistical approaches, we study how society interacts with information and communication technologies, as well as how these technologies can be involved in the development of new data-collection methods in the field of social science research. In this way, we contribute to understanding digital technology and promote its socially responsible use.

CONTINUOUS PROJECTS/PROGRAMMES:

- **WebSM** (www.WebSM.org) – Web Survey Methodology website: leading global online resource for web surveys
- **1KA** (www.1ka.si) – OneClickSurvey: advanced open-source web survey software
- **Internet research** (www.cdi.si) – Research programme that examines the Internet as a research object in contemporary society and as a tool for social science research.
- **Safer Internet Centre Slovenia** (www.safe.si) – with the Safe.si awareness centre, the Spletno oko hotline and the TOM helpline
- **UL student's surveys** (<http://ul.1ka.si>) – Management and implementation of survey-based course evaluation process and general satisfaction of students on behalf of the University of Ljubljana

MAJOR ACHIEVEMENTS:

- **A project partner in more than 50 international projects** (FP5, FP6, FP7, ESS, COST, PIAAC, LLP, Erasmus+, EU tenders, Horizon 2020, Interreg ...)
- The **project coordinator** of two large international projects – **WebSM and 7EU-VET**
- Citation classic: **Web surveys versus other survey modes: a meta-analysis comparing response rates (2008)**, published in the International Journal of Market Research
- The book **Web Survey Methodology (2015)**, published by Sage
